

Fort Belvoir is now using the iSportsman software program to register all hunters as well as manage hunting areas, waterfowl blinds, check-ins/outs, and game harvest information. The website is www.ftbelvoir.isportsman.net. Hunters must first register by creating an account which can be utilized at all installations that are using iSportsman! If you have an account from another installation, you can login using the same username and password! The software then allows all users to access hunting via the website, telephone, or smartphone. The policy regarding the upcoming hunting season is currently being drafted and will be made available shortly on the iSportsman and Outdoor Rec website.

To Create a New Account:

1. Go to www.ftbelvoir.isportsman.net
2. Click on “My Account” in the blue menu bar, then select “New User Registration”, then click “Register”. You will be asked to create a username and password as well as personal information such as address, phone, email, vehicles, customer type (military, civilian, etc.), and VA DGIF Customer ID #.
3. You will then be able to purchase permits for a variety of recreational activities. Only permits that are available for purchase will be displayed.
4. Permits can no longer be purchased at ODR.

- For those wishing to bowhunt, qualifications will be conducted at ODR as usual, your account will then be validated by staff, which will then allow you to purchase permits (when available).
- For those wishing to waterfowl hunt, once registration is complete, you will be able to purchase permits (when available).
- As the program and software progresses, all users will receive email notifications for updates, status, and any instructions necessary.

The Fort Belvoir Natural Resources Branch and Outdoor Recreation Department want to thank you for your patience and cooperation as we transition into this new program.

For further information contact the NRB, Kevin Walter, at 703-805-3969 or ODR 703-805-3081.
